

Sausage Chipolata

Cooked & Skinless, Gluten Free

1. Bryopin sausages are designed for health and aged care use.
2. Sausages are low fat, skinless, blanched and accurately portioned by weight and size. They have a mild taste. Sauces, marinades and sprinkles compliment the sausages.
3. The sausages are pasteurised for a long shelf life.
4. All the sausages contain beef and lamb – but not pork.
5. This is a labour saving product. No knives, minimal handling and minimal time to cook = **PROFIT**.

HOW TO COOK

- Good food safety practice is to re-heat to an internal temperature of 75°C.
- Use the oven, grill, BBQ or pan.
- Combine with gravy in oven, heat to 75°C and serve with rice or side dish.
